

Business Continuity Game

An engaging BC training, driving a culture of preparedness and resilience in organisations through an **online simulation-based serious game**

“Life isn't about waiting for the storm to pass; it's about learning how to dance under the rain.”

- ✓ Learn BC principles through hands-on experience
- ✓ Develop strategic and collaborative decision-making skills
- ✓ Practice BC in a risk-free environment
- ✓ Improve BC skills through real-time feedback
- ✓ Understand complexities and interdependencies
- ✓ Foster teamwork and collaboration
- ✓ Enhance BCM awareness and maturity

Play with 3 different organizations

Auto-parts manufacturer

Electricity operator

Logistics service provider

Try single or multi-player mode

Developed as part of RemLab project funded by the EC under the Erasmus+ program

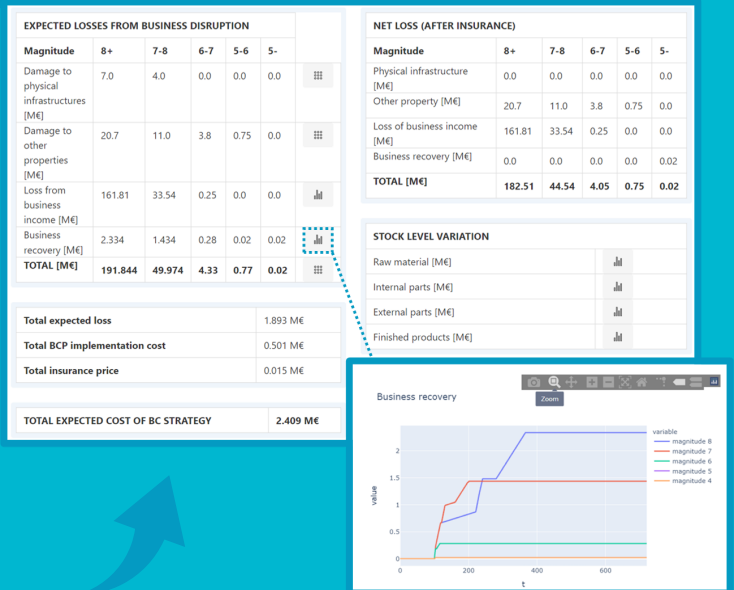

Go through the different simulation steps to develop a BCP

- ✓ Take the role of Business Continuity Manager
- ✓ Prepare for a realistic scenario
- ✓ Develop a Business Impact Analysis
- ✓ Assess risks and interdependencies
- ✓ Analyse business recovery solutions
- ✓ Simulate scenarios, reflect and improve
- ✓ Set your BC strategy to minimize total BCP costs
- ✓ Enhance resilience against external factors
- ✓ Develop coordinated BCPs
- ✓ Critically discuss pros and cons of alternative approaches

The auto-parts manufacturer's business process

Example of simulation results for the auto-parts manufacturer

BC strategy settings for the auto-parts manufacturer

Solution 1

Additional stocking capacity for finished products: 0 10 5

Solution 2

The total available additional stoking capacity for the next quantity is 30 (the sum of the quantity is limited to 30)

Additional stocking capacity for raw material: 0 30 10

Additional stocking capacity for internal parts: 0 30 10

Additional stocking capacity for external parts: 0 30 10

Default stocking level for raw material: 0 30 10

Default stocking level for raw material: 0 20 5

Default stocking level for raw material: 0 30 10

Solution 3

Backup manufacturing equipment: ☐ Yes ☒ No

Backup assembly equipment: ☐ Yes ☒ No

Solution 4

The total available additional stoking capacity for the next quantity is 30 (the sum of the quantity is limited to 30)

Alternative outbound transport (Finished products): 0 30 10

Alternative inbound transport (Raw material): 0 30 10

Alternative inbound transport (External parts): 0 30 10

Solution 5

Earthquake-proof Main Facility: ☐ Yes ☒ No

Warehouse reinforcement: ☐ Yes ☒ No

Logistics Center reinforcement: ☐ Yes ☒ No

Solution 6

Insurance package:
 NO 1 2 3 4 5 Full
☒ ☐ ☐ ☐ ☐ ☐ ☐ ☐

INVESTMENT (k€): 55
